---

TECHNICAL SKILLS

Frontend: HTML5, CSS, JavaScript, Bootstrap | **Testing/Deployment:** Jest, Heroku, GitHub Pages
Backend: MySQL, MongoDB, Express, Node, Handlebars | **Developer Tools:** Git, npm, Agile Methodology, TDD

PROJECTS

Tech Blog | github.com/b-frazier/tech-blog

- Designed a full-stack, responsive web application to allow users to create, read, update and delete blog posts and comments. Users can create an account, login and logout securely using encrypted passwords and sessions.
- Utilized Node.js and Express to build the backend and API endpoints, with Sequelize as the ORM to interact with a MySQL database.
- Incorporated authentication middleware to protect routes and ensure only authorized users can create, edit, or delete blog posts and comments.

Employee Tracker | github.com/b-frazier/employee-tracker

- Developed a CLI content management system using JavaScript, MySQL, and Node.js to create, read, update, and delete employee information in a database, demonstrating strong backend development skills.
- Implemented an efficient and user-friendly interface using inquirer.js that allowed the user to easily add, view, and update employee information, showcasing excellent problem-solving and UI design skills.

Weather Forecast Application | github.com/b-frazier/weather-forecast

- Designed a responsive web application using JavaScript, HTML, CSS, Bootstrap, and Express.js to display current weather conditions and a 5-day forecast for searched cities, showcasing strong frontend development skills.
- Developed a responsive user interface and implemented dynamic API calls to retrieve and display current and forecasted weather information.
- Implemented local storage functionality to save the user's five most recent searches, allowing for easy access and quick retrieval of weather information.

WORK EXPERIENCE

Simantel | Technical Project Manager | *July 2022 - Present*
- Acted as the primary point of contact for all stakeholders, providing regular project updates and communicating project status, risks, and issues.
- Worked collaboratively with Analytics and Strategic teams to ensure month-end media metrics were delivered and integrated into overall agency metrics/analytics reports.
